YELLOW FEVER.

A Ship's Crew Nearly All Dead. NEW ORLEANS, Aug. 2.—Information was received to day that the Norwegian bark, Agnes Campbell, which arrived at Ship Island quarantine station Thursday night from Aspinwall, lost on the passage and since her arrival at the station, six men out of a crew of twelve, with yellow fever. One other has been taken sick since the vessel arrived, and there are now four cases on board, leaving only the captain and two men on duty. The infected vessel is undergoing strict quarantine.

A Druggist's Story. Mr. Isaac C. Chapman, Druggist, Newburg, N. Y., writes us: "I have for the past ten years sold several gross of D. Williams' Hall's Balsam for the lungs. I can say of it what I cannot say of any other medicine. I have never heard a customer speak of it but to praise its virtues in the highest manner. AND AS A REMEDY FOR CONSUMPTION, SCROFULA, BRONCHITIS, ANEMIA, GENERAL DEBILITY, COUGHS AND THROAT AFFECTIONS, AND ALL WASTING DISORDERS OF CHILDREN it is unrivaled in its results. Prescribed and endorsed by the best Physicians in the countries of the world."

A two-quart tin can filled with gold coin, worth \$2000, was the find of carpenter J. L. Parsons, at Youngstown, O., in repairing Bill Henry's empty house, near Youngstown. Who hid it there? Is the conundrum.

That Terrible Drain. Which scrofula has upon the system must be arrested, and the blood must be purified, or serious consequences will ensue. For purifying and vitalizing effects, Hood's Sarsaparilla has been found superior to any other preparation. It expels every trace of impurity from the blood, and bestows new life and vigor upon every function of the body, enabling it to entirely overcome disease.

Lima, O., is pumping nearly 3000 barrels of oil a day.

## AWFUL SUFFERING.

Endured by the Starving Inhabitants of Labrador.

Boston, July 30.—A St. John, N. F., special to the *Advertiser* says: Hergastis Yee, one of the Eskimoes who arrived here on the Nancy Barrett from Okkak, Labrador, says that the population of that settlement was nearly 130, yet when he left with his wife not a soul remained. Early in March food gave out. Every drop of oil and bit of seal skin was utilized, and at rare intervals a bear was killed, but finally the supplies were quite exhausted. On June 3 they had eaten nothing for six days, and goaded with hunger they feasted upon the corpses of several whites and a few Indians that had been killed by the cold. When one of their party died, his or her body was cut open, the entrails were taken out, and the remainder was frozen up for use. From this food terrible dysentery set in among the survivors, and on July 1 there were but sixteen persons left alive, the bodies of over twenty-five having been eaten. The sixteen survivors started down the coast in a sledge drawn by four dogs, the only living creatures left them, their ponies having been sacrificed to appease hunger long before. When about twenty-four miles from Cape Mugford, a heavy snow storm set in. While the party were endeavoring to find their way they were attacked by white bears to the number of twenty-five or thirty, which killed all of their party but two. Yee reports that more than one-half of the entire population have died of hunger. Thousand of bears have crossed over from Pennsylvania, ransacked the stores of Okkak, dug open the graves and devoured the dead and attacked the living.

Dr. R. Rutler, Master of Arts, Cambridge University, England, says: "St. Jacobs Oil acts like magic."

We don't wish to be understood as finding fault with nature, but we do wish, from the bottom of our hearts, that the luminous end of the fire-fly had been hitched to the mosquito.
